

A6-117

Clear Nitrile Rubber Adhesive

Description

A6-117 is a clear, multipurpose solvent-based adhesive that provides a strong flexible bond with good chemical, oil and fuel, moisture and temperature resistance.

These properties make it suitable for use in demanding environments and applications such as industrial gasketing.

Application method(s)

A6-117 is of a medium viscosity that lends itself to most coating techniques.

All surfaces should be dry, clean and free from loose particles or grease.

The drying time will vary according to temperature, humidity, weight of adhesive and porosity of the surfaces being joined.

Curing

N/A

Usage Notes

Clean equipment with Methyl Ethyl Ketone.

Thinning is not necessary.
